# ***National Conference on Climate Resilient and Sustainable Development of Horticulture***

May 28-31, 2022, CSAUA&T, Kanpur, Uttar Pradesh, India

Horticulture comprises, Fruits, Vegetables including tubers, floriculture, Spices, Plantation, Medicinal and Aromatic Plants, has emerged as vital for the socio-economic development of the country, to ensure nutritional security, environmental services, employment generation, health care and above all effective and productive land use. The emerging trend worldwide and also in the country is indicative of a paradigm shift in dietary preference with health consciousness and rise in expandable income. This change is demanding more horticultural produce. Trend of horticulture development in the past, particularly during the last two decades, has been satisfying. The adoption of horticulture crops in the systematic manner has improved the quality of life of people in many regions as farm profitability has increased. Current challenges to the horticulture are investment and capital, access to technology and initial learning for development of the acquired skills. Attempts to address many of these issues were made through mission mode approach, which brought a revolution in horticulture, referred to as **Golden Revolution**. The initiatives provided access to technology and markers to enhance income and attract educated youth to the horticultural farming, considering that, it is economically awarding and intellectually satisfying. However, in the last few years climate change has become one of the threats in achieving the goal of enhancing production to meet the needs of growing population. The challenge in horticulture, thus, is much more than before. Wherein, we have to produce more with declining land and water availability in the scenario of climate change. This calls for climate resilient and sustainable development of horticulture through technological intervention, innovation and skill up-gradation. Therefore, **ASM Foundation** in association with **Chandra Shekhar Azad University of Agriculture & Technology, Kanpur, Uttar Pradesh** is organizing a four days conference on **“Climate Resilient and Sustainable Development of Horticulture”** May 28-31, 2022. The conference will also have collaboration of the JISL, Jalgaon, the CHAI, New Delhi and the TAAS, New Delhi.

The conference seeks valuable inputs from all the stakeholders, through knowledge sharing for developing strategic recommendations to develop policy framework and understand the current status of horticulture. The conference will also analyse likely impact of climate change on production and productivity of horticultural crops and how these challenges can be mediated through various technologies. Accordingly, the conference will address the challenge of livelihood for rural development through knowledge sharing on climate resilient horticulture for sustainable development. It is expected to enhance knowledge, identify technologically viable, futuristic research for improved livelihood options. The conference is structured for presentation by leader in field of expertise, and deliberation on the issues in technological areas spread over 18 technical sessions. Besides, introductory and valedictory session, there will be an open session for industry, entrepreneurs and field functionaries. Subject in each session will be identified and moderated. The Panelist will be given optimum time for sharing their views with powerpoint presentation, to encourage the opinion and innovations. Individuals will present in the form of poster and few selected abstracts will also have opportunity for oral presentation. Best oral and poster paper shall be adjudged by team of experts and selected one will be awarded.

The conference will also host many other important activities namely, Horticulture Expo-2022, National Level Essay Competition, Farmers' Quiz and Distribution of quality Seeds & planting material to the farming Community and the Conferment of Awards and Post Conference Tours. The Shodh Chintan, will be published, where, there is an opportunity for sponsorship as well as showcasing activities through advertisements and participation in the Exhibition.

We have immense pleasure in inviting you to this conference being organised during 14th Swadesh Prem Jagriti Sangosthi-2022, to provide your valuable inputs for developing strategic recommendations. Your active participation, in the National Conference and activities to be organised during the

Sangosthi, will be highly appreciated. Once again we solicit your kind cooperation in addressing vital issues of climate resilient and sustainable horticulture to ensure food, nutrition and livelihood of the growing population, beside environmental services.
